Let’s get started!

React - Setup

Marga Lensen

Your Full-Stack Learning Journey

a roadmap with stepping stones and milestones

Making progress - one stepping stone at a time

Diverse backgrounds: **HTML/CSS, JavaScript, UI/UX**

Where you are: individually different

🎯 **The Goal:**
Learn Full-Stack Web Development → Junior Developer Role

The Path – Step by Step via Milestones 📍

- Full-Stack (Next.js + MongoDB)
- Frontend (React)
- Polish (Tailwind CSS)
- UI/UX
- Mini Milestone 0 (JS Recap)
- HTML/CSS

Course Topics - libraries, frameworks and more

ReactJS

1. **Intro to React** (SPA, Vite, components)
2. Prototyping **Props**, **Rendering**, **Hooks**
3. Handle complex application **state**, **API** and **Styling**

Next Js

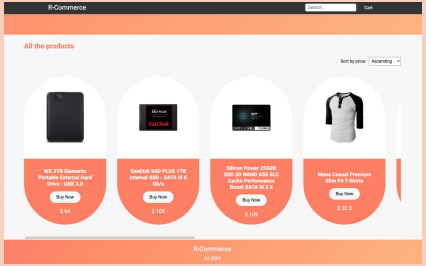
1. Implement **SSR** for better performance and **SEO**.
2. Build **RESTful APIs** using **Next.js API routes**.
3. Handle **dynamic** and **secure routing**

MongoDB & Tailwind CSS

1. Database Integration: Connect **MongoDB** to your application
2. Perform **CRUD** operations.
3. Styling with **Tailwind CSS**

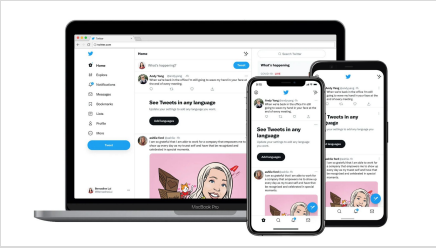
Course Topics - 2 structuring projects

React



Build an e-commerce with product listing, shopping cart, and dynamic filtering.

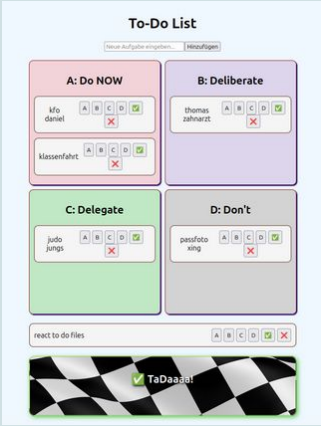
Full-stack web-app



Create a **clone of Twitter** with tweet functionalities, user interactions and real-time updates

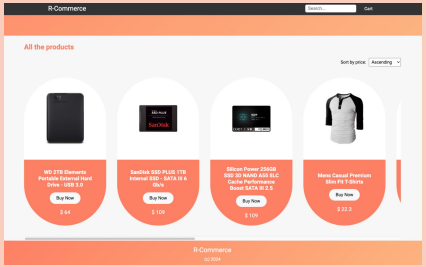
Course Topics - 2 structuring projects

HTML/CSS with JS



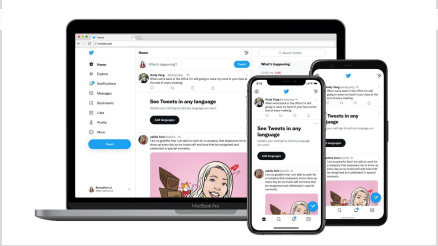
Websites and web apps with responsive design, animations, interactions on the site, fetching data by APIs, persistence with localStorage…

React



Build an e-commerce with product listing, shopping cart, and dynamic filtering.

Full-stack web-app



Create a **clone of Twitter** with tweet functionalities, user interactions and real-time updates

Outline

01 Warm-Up

Check in & "*where do you stand?* "

10 min

02 What's nice about React

10 min

Components, fast setup with **Vite**

03 Setup your React project

30 min

node.js; node package manager (npm)

04 Break

10 min

05 Example React Project

45 min

Using the virtual DOM and localStorage

=> SPA (To Do List)

06 Frontend Web App

Next class

Build an e-commerce app

01 Warm-Up

Check in & "*where do you stand?* "

01 Warm-Up

Where do you stand?

01 Warm-Up
